We deliver solutions to common problems.

NUMEROUS DIFFICULTIES

Cryptocurrencies are more than a decade old. Yet, individuals face difficulties getting in and out. Despite adoption hitting almost 1B users worldwide, traditional finance systems still neglect the industry. There are too many blockchain networks and wallets to choose from.

Businesses are overwhelmed by regulations, licensing, tax requirements, and ever-changing trends. Crypto lives 24/7/365, so business owners must continuously research the market, adapt to new compliance rules, and chase the competition.

SIMPLE SOLUTION

That's why both groups desperately seek comprehensive and flexible solutions, such as those offered by Ari10. Our product ecosystem is designed to serve online and offline, creating effective bridges between the traditional and crypto worlds; simplifying crypto onboarding and offboarding.

Why you can **trust us?**

A BUSINESS WITH TRACTION

Our token catalyzes an established business, driving an impressive surge in sales year over year. Projections indicate that this growth is just the top of the iceberg, signaling even greater opportunities.

HOW IT STARTED: **SHORT STORY OF A LONG JOURNEY**

In 2017, our cryptocurrency journey began with the launch of Bitcan, an online exchange platform that led the charge in the Polish market. Now known as Ari10 Exchange, our platform has proudly served over 200,000 customers. Since 2019, we've been expanding our reach with Cryptoterminal, a Point-of-Sales (POS) device, creating a nationwide network of partner cryptocurrency exchange points. Early in 2020, we introduced BitcoinWidget, enabling seamless BTC purchases. This tool has since evolved into the Ari10 Gateway, tailored for businesses and projects. Today, under the unified Ari10 brand, our offerings — including the Ari10 Gateway, Cryptoterminal, and Exchange are seamlessly integrated, forming a cohesive ecosystem driven by the ARI token.

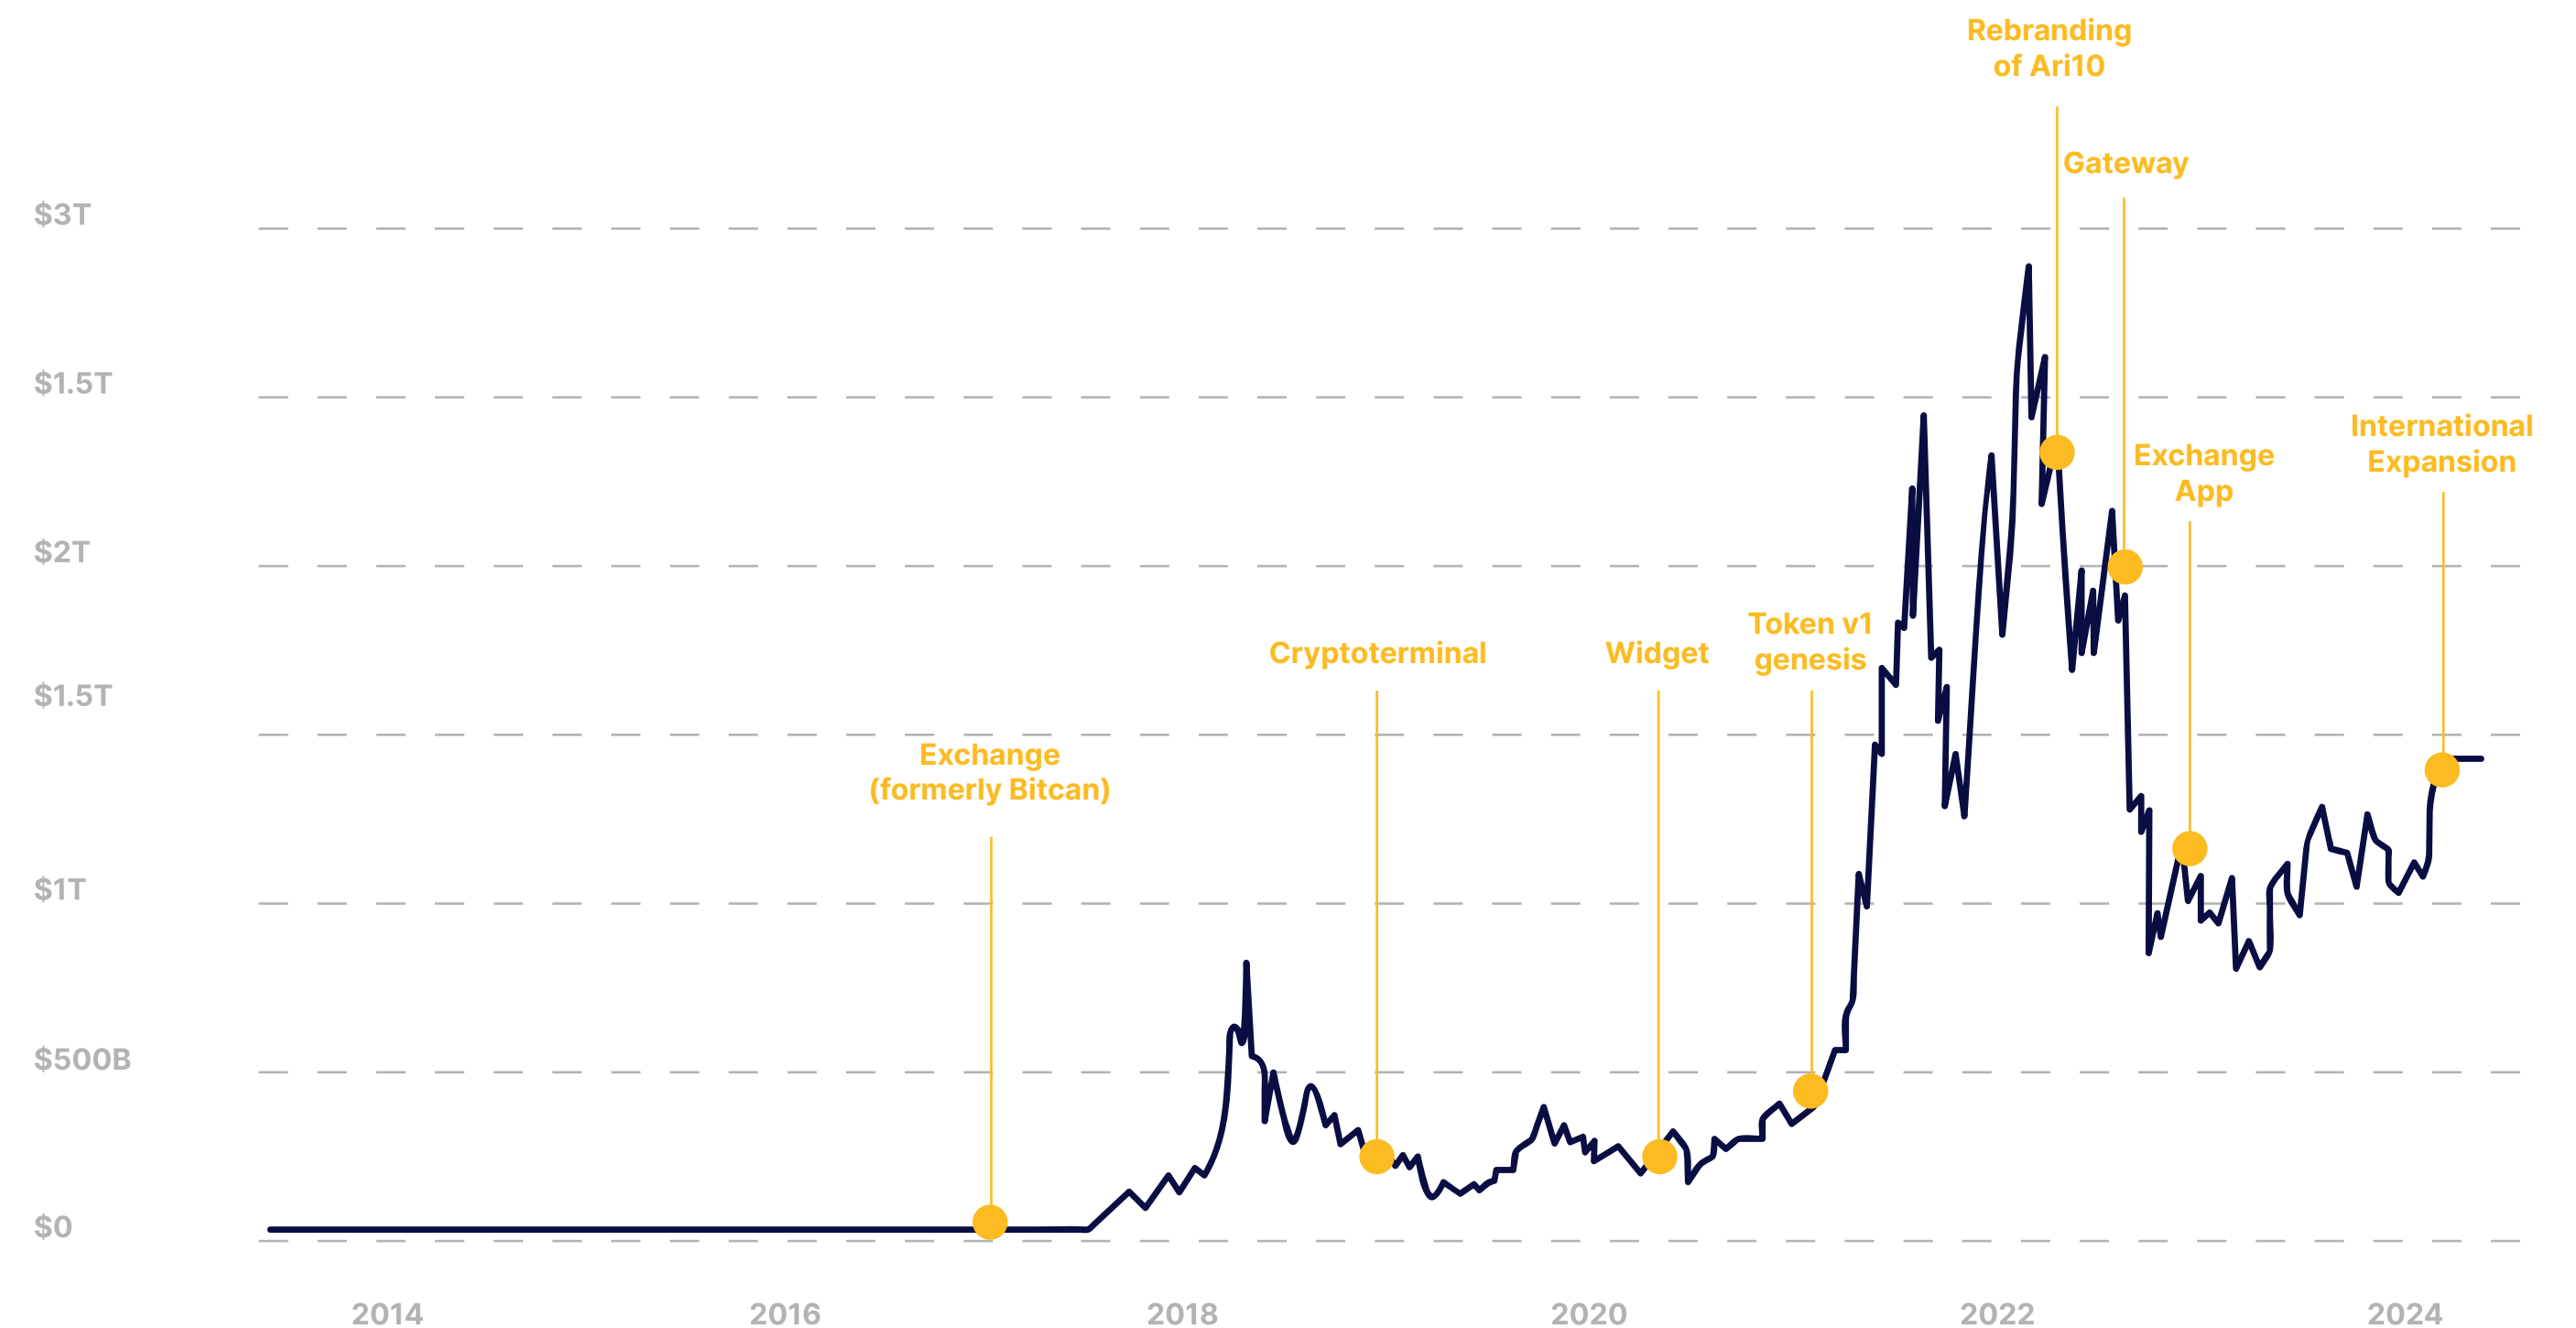

Blending Experience with Innovation

- That's Our Definition of Old-school.

Throughout our journey, we've weathered the highs and lows of the cryptocurrency market, navigating its unpredictable twists and turns fueled by emotion. Over seven years since our company's inception, the wisdom we've amassed is immeasurable. Our resilience shines as our business remains profitable, adeptly managing buying and selling facets regardless of market fluctuations. Amidst an ever-evolving regulatory landscape, we confront new hurdles regularly, yet our adaptability remains steadfast as we meet each challenge head-on, aligning seamlessly with evolving requirements and regulations. It's worth noting that we integrated the token atop established businesses boasting a solid track record of profitability — not the other way around. We are builders at heart, relentlessly building regardless of market cycles or directions.

Cryptocurrency Market Capitalization Chart

Ari10 Ecosystem

EXCHANGE

Online cryptocurrency exchange & wallet. Near-instant transaction settlement paired with popular payment methods.

TOKEN

A binder that creates utility prevalence around products by adding additional value.

GATEWAY

A crypto-powered purchase, payment, and fundraising white-label tool for projects, app, and website owners. Supporting both on-ramp and off-ramp.

CRYPTOTERMINAL

Franchise offering for stationary and mobile crypto exchange offices.

Tokenomics

What else will happen to the tokens? **Scroll Down!** 

Legacy - tokens that belong to our amazing community, received through an airdrop for burning old ARI10 tokens.

Marketing - the most critical part of token growth. It is reserved for use only when \$ARI token price will stay above 0,015\$.

Liquidity - a new pool that won't include LP. Used only as a source of liquidity for listing on new exchanges.

Staking rewards - despite reduced inflation, we plan to continue staking and farming until further announcements.

Affiliate rewards - rewards available in the Affiliate Program and circulating within our ecosystem. This pool is designed to secure internal settlements.

Strategic partnerships - token pool used to fulfill requirements from external ecosystems. Reserve that will play a vital role in synergic growth.

Emergency funding - token pool reserved in any case not stated above, which would incur the use of tokens as part of the deal or funding.

Community initiatives - a new pool reserved for Community ideas and proposals submitted through Governance.

LEGACY	259 648 660
MARKETING	79 200 000
LIQUIDITY	40 000 000
STAKING REWARDS	35 200 000
AFILIATE FUNDS	20 000 000
STRATEGIC PARTNERSHIPS	20 000 000
EMERGENCY FUNDING	15 600 000
COMMUNITY INITIATIVES	10 000 000
TOTAL	479 648 660

The \$ARI Token

The potential of the \$ARI token parallels that of ecosystem tokens seen in similar projects, like exchange tokens. Our vision mirrors the trajectory of projects that began on a smaller scale and rapidly expanded. However, what differentiates us is our unique approach, which involves integrating the token into an already profitable business model.

We designed the token not just to fund our project but to complement and enhance our products' ecosystem. Moreso, through the years, we have built a strong community that cultivates around the token. This collective extends beyond our current customer base and actively contributes to the swift scaling of our business.

STARTS!

Participate in staking **to receive airdrops**

Ari10 marketing campaigns

Our collaborations allow us to deliver marketing campaigns and airdrops of high-potential tokens.

01. Ari10 is buying marketing activities.

02. Partners are running campaigns for our stakers.

03. Eligible users receiving the airdrops as rewards.

Ari10 Gateway as a product

As part of the agreement, our gateway allows us to receive partner token airdrops and distribute them to our community.

01. Ari10 implements Gateway to the partner.

02. Partner transfer tokens to treasure.

03. Airdrop to our stakers.

deeper into the exciting
world of staking and uncover
the secrets of crypto bulls
and whales!**

Bullish benefits of Staking

No inflation risk:

Staking in ARI does not involve the creation of new tokens, meaning your assets are not exposed to inflation caused by token generation.

Favorable transaction conditions:

By staking, you can execute purchases and sales at Ari10 on more advantageous terms, minimizing your commission and maximizing your investment returns.

Unique investment opportunities:

Gain access to exciting, vetted projects, offering unique investment opportunities perfect for savvy investors.

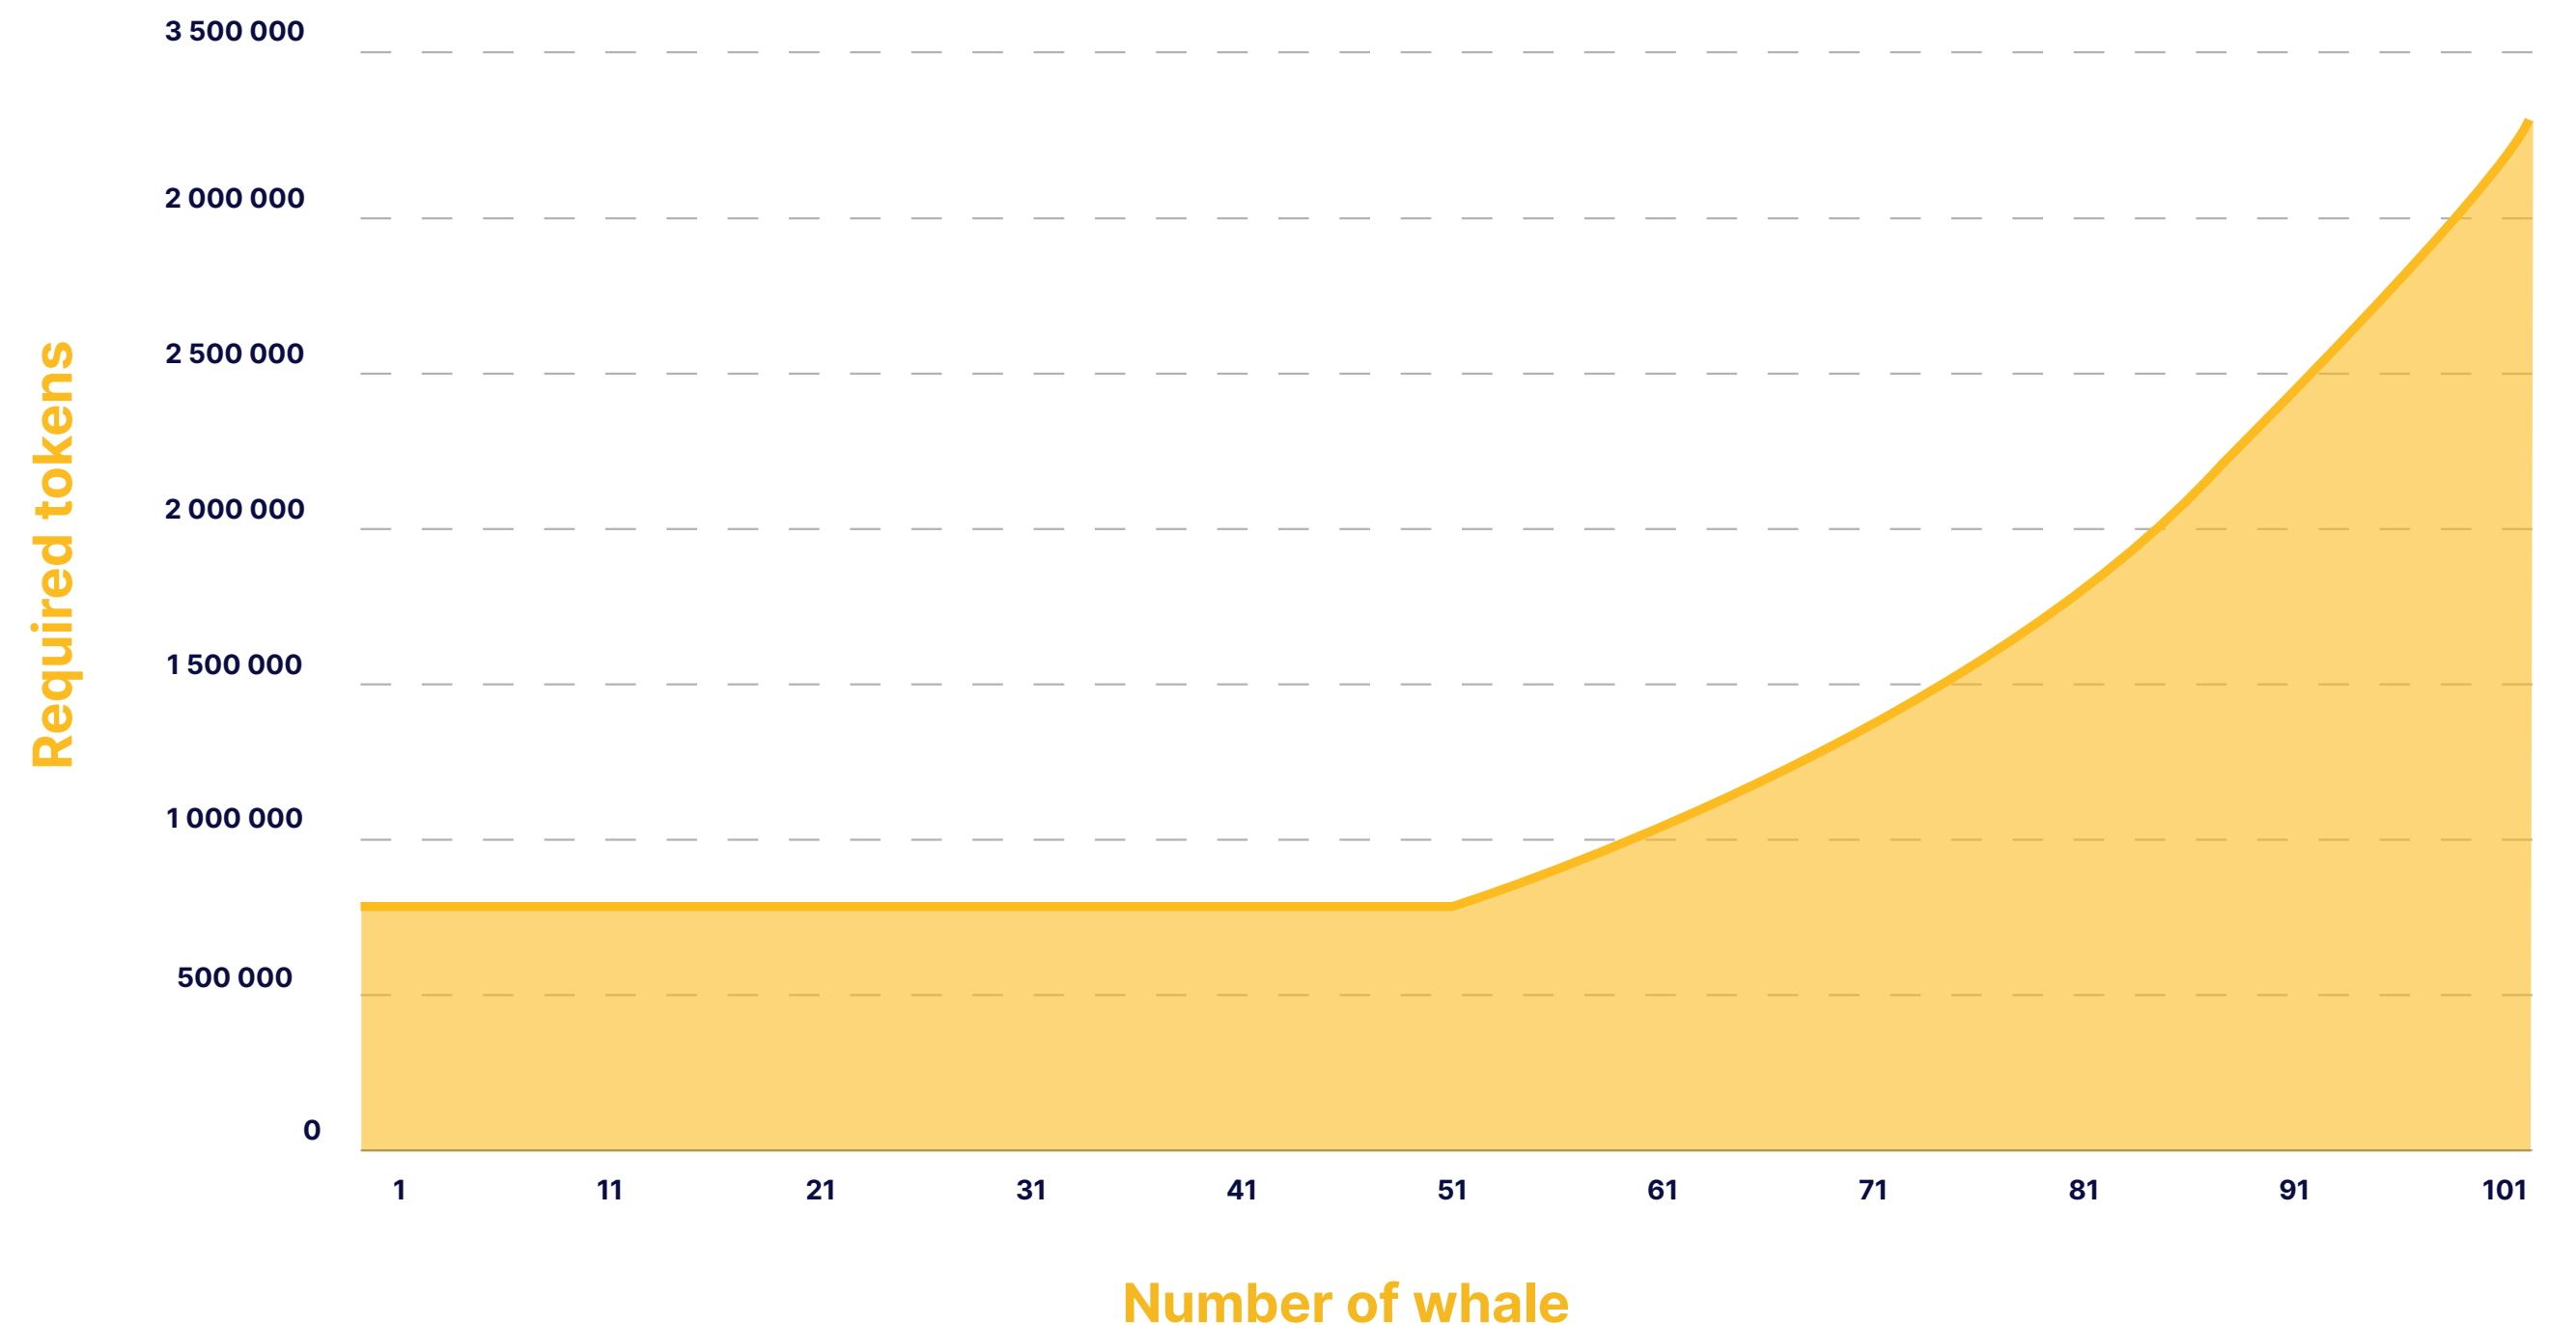

The Whale Club

Hey, big spender, we appreciate your whale-sized contributions and **dedication to ARI10!**

\$ARI token holders who stake significant amounts are humorously called Whales. First 50 Whales formed the Whale Club by staking at least 777,777 \$ARI10 tokens. Each new Whale joining the Whale Club beyond the original 50 investors increases the staking requirement bar by 3%.

Now, what do these majestic whales receive in return? They get to bask in exclusive privileges and enjoy a buffet of benefits. Picture it as a whale-sized feast of preferential Treasure Airdrop terms, special access to seed & private round deals, news of upcoming activities, updates and information about upcoming changes directly from the team.

FEE DISCOUNTS

Eligible \$ARI token stakers enjoy discounts across the Ari10 Ecosystem. Discounts range from 5 to 100%! Whether you are a Baby Fish, Fish, Baby Whale, Shark, Walrus, Orca, or proclaimed a King of the Ocean - we have a product discount that will suit you.

GOVERNANCE

\$ARI token holders are welcome to participate in the decision-making and proposal submission processes. Governance through token empowers our community to shape the active development of our company. Whale Club members are entitled to submit governance proposals. This system promotes the concepts of decentralization and democratic voting.

\$ARI Tokenback

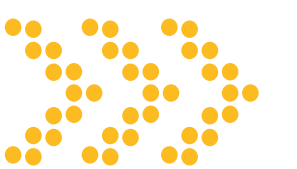

It pays to trade cryptocurrencies face-to-face. Crypto transactions via our Flagship and Partner Currency Exchange Offices result in \$ARI token rebates on fees.

Please note that the Tokenback rebate applies to the commission charged by Ari10 as the operator and not the commission of the Cryptocurrency Exchange Office.
